SUMMARY

IT Intern at 'Centauro Engenharia', Web Developer of the company's portal in PHP, JavaScript, HTML, and CSS, Database Administration (PHPMyAdmin / MySQL), and HelpDesk services. Responsible for the maintenance of computers and laptops. Rack setup, switch configuration, server and network maintenance. Inventory management, rental, and preparation of laptops and desktops. My objective is to continue developing my programming skills to achieve my dream job. Currently in the sixth semester of Computer Science at CEFET/RJ, where I was a member of Enactus CEFET/RJ as a member of the Administrative Finance Department and Financial Representative of the Odoyá Project. Participated in a research project where I translated approximately 1,500 phrases from Portuguese to English.
